Wheatland S. D. No. 40

Hold Regular Meeting

The July meeting of the Board of Trustees of the Wheatland School Division No. 40 was held on the 24th inst.

Twenty-six additional resignations from the Teaching Staff were accepted with regret. Miss Eunice Robertson, formerly teacher at Orange Valley school was granted Leave of Absence for the duration of the war to join the C.W.A.C. and has left for Montreal.

In all 39 teachers left the service, but as 5 schools have closed, it was only necessary to engage 34 new teachers to complete the staff for the new school year. Some of the more experienced teachers have been transferred to heavier schools and below is a complete list of the new staff showing the schools to which they have been assigned.

The opening date for school for the fall term has been set for Tuesday, September 1st at 9.30 a.m.

Teachers Institutes are to be held at 5 central points in the Division again this year, during the last half of September to discuss various school problems.

The building program is progressing rapidly now. The basements have been dug for the new buildings which are being moved to Orange Valley and Berta Vale and it is expected that the buildings will be on the sites by the end of this week when work will commence on the cement and renovation No. 1 maple flooring has been purchased for both schools.

Fertile Valley School, about 7 miles N. W. of Swallow, is also being planned over a new full basement, furnace installed, a new bank of windows and generally overhauled.

WHEATLAND SCHOOL DIVISION NO. 40

TEACHERS LIST 1942-43

School District	Name of Teacher
Advent	Miss Jessie Brookman
Akenstad	Mrs M. H. Kimmitt
Antler Sr.	Mr Rudolph Bieher
Antler Jr.	Miss Mary J. Toews
Athol	Mrs Inez M. York
Baintree	Mrs Madeline Vermont
Beeman	Miss Ida A. Ward
Berkeley	Miss E. L. Kocurek

Kathryn Jr.	Miss J. I. Glingrass
Kis Ora	Miss Bernice L. Lannan
Layden	Mr Arpad Munkacs

REV. LESLIE T. H. PEARSON, B.A., L.T.H. RECEIVES CALL TO ST. JOHN'S CHURCH, CALGARY

The parishoners of St. Michael and All Angels' Church, and the citizens of Strathmore generally will very sincerely regret the removal of Rev. and Mrs. Leslie Pearson from our town. We warmly congratulate Rev. Pearson on this call to a larger and very attractive parish.

Whilst regretting their removal, we are in no wise surprised as Strathmore citizens have for sometime fully recognized that larger fields of endeavor would learn of Mr. Pearson's marked ability, and through their Bishop, wider doors of opportunity would be opened to him. They have come all too quickly from a local viewpoint. Rev. Leslie Pearson was inducted as Incumbent of St. Michael's Church, Jan. 7, 1940, and during those two and a half years, he has given assistance and inspiration to every beneficial and progressive movement.

In June, 1940, his marriage to Miss Mary Byers, R.N., daughter of Dr. and

Mrs. Byers of Ponoka was solemnized in Calgary when Rt. Rev. L. Ralph Sherman, D.D., was the officiating clergyman, assisted by Rt. Rev. Dean Hagg.

As Rector's wife, Mrs. Pearson has been an able assistant to her husband giving her aid to every local welfare movement.

It was under her guidance the now very commendable Junior Choir was formed.

They have made many warm friends in Strathmore whose regret at their removal will be mingled with good wishes for their future.

STRATHMORE C.P.R. FARM BRINGS HOME THE RIBBONS

Strathmore's C.P.R. Farm, the home of the largest Holstein herd in Canada topped the list of winners at the Stock Shows in Calgary, Edmonton and Saskatoon.

Our hats off to Mr. Art Hay, the energetic manager.

Following are the prizes won:

At Calgary—
Reserved Sr. Championship Cow.
Reserved Grand Championship Cow.
Reserved Sr. Championship Bull
Reserved Jr. Championship Bull.
12 Firsts and 7 Seconds.

Grand Champion Percheron Mare
6 Firsts, 2 Seconds, 3 fourths.

At Edmonton—
Junior Championship Heifer.
Reserved Jr. Champion Heifer.

Reserved Jr. Champion Bull.
9 Firsts and 3 Seconds, showing only 9 head.

Percheron Winnings—
Grand Champion Mare.
5 Firsts and 1 Second

At Saskatoon—
Holstein winnings showing only 9 head.

Reserved Jr. Champion Heifer.
10 Firsts and 1 Second.

THE 'OUT-SIDE'

GROWING HERBS FOR CHEMISTS AND HOUSEWIVES

Deadly nightshade (belladonna) is being cultivated at Kew's Royal Botanical Gardens in Surrey to let Britain's manufacturing chemists have the 2 1/2 tons of the medicinal herb needed for rheumatic ailments. Kew is also growing colchicum, another anti-rheumatic herb from bulbs collected by Boy Scouts in the English countryside.

Once the private gardens of England's kings, Kew has also set out to show the British housewife what can be done with the traditional English herbs. Dill, fennel, sage, chervil, many herbs now being grown there, joram and thyme are some of the and all of them provide attractive flavorings for soups and other wartime dishes.

In the midst of its 288 acres, Kew has now a regular 10-rod allotment with a woman gardener in attendance to help amateur food growers with their problems of raising potatoes, sweeds, parsnips, carrots, onions and other vegetables.

●One ton of salvaged bones gives 2 cwt. of grease, yielding nitro-glycerine for shells, lubricating oil for guns and tanks and 3cwt. of glue in the making of aircraft, tanks, guns, ships and shells; 1cwt. of feedingmeat and bonemeal, providing the protein ration for 450 pigs for one day or 8360 hens for one day; and 9cwt. of fertiliser sufficient for 4 1/2 acres of land.

Local authorities in Britain are recovering bones at the rate of over 10,000 tons a year. The raw bones go to the factory where the first step in order to recover the tallow, is to sort out any fatty material which is melted separately. The sorted bones are then crushed and conveyed mechanically to large steel vessels holding 10 tons. Benzene vapour is passed through these vessels to sterilize the bones and remove the grease. The grease is recovered from the benzene solution and purified to give bone grease for the manufacture of candles, soap and glycerine.

●Britain is taking special care in this war of the feet on which her troops will join in the march to victory. Corns, bunions, ingrowing toenails and other foot troubles are now to be altogether banished.

FIFTY THOUSAND TONS OF TOMATOES

To Grow Where English Roses Bloomed in Peace Time

In the glass houses where roses and carnations bloomed in peace time, British farmers hope to produce this year 50,000 tons of tomatoes. They are also growing great quantities of outdoor food crops.

One nursery alone, whose output in 1939 was entirely of cut flowers, produced last year 950 tons of tomatoes, 125,000 lettuce, 320 tons of sugar-beet, 100 tons of onions and 75 tons of carrots, all from glasshouses or from land previously planted with flower crops. This year 83 percent of the nursery's total glass area is planted with tomatoes and 80 percent of its outdoor ground is growing food crops.

TAKE YOUR TIME—

He— Every time I kiss you it makes me a better man.

She— Well, you don't have to try to get to Heaven all in one night.

The Death of Walter Dawkins

STRATHMORE PIONEER

Resident of the Strathmore district since 1912, Walter Dawkins, 55, died at his home Wednesday following a lengthy illness.

Born in Barford St. Martin, Wilts, England, Mr. Dawkins came to Strathmore in the spring of 1912 and the first while was town policeman. He later operated a livery and dray business and took up farming 28 years ago and farmed until the time of his death. Mr. Dawkins possessed a quiet but faithful interest in the work of the Church and was known as a good neighbor.

Surviving are his wife, Florence Mabel; three daughters, Mrs. J. Knight, Mrs. Alfred Crellin and Elsie Louise, all of Strathmore; two sons, James Walter, Strathmore, and Frederick Charles, Calgary; two brothers and a sister in England; and a brother in South Africa.

The funeral will be held from St. Michael's Church Saturday at 2 p.m., the Rev. Leslie Pearson conducting the service.

Burial will be made in Strathmore Cemetery, Jacques Funeral Home in charge.

The sympathy of the community is extended the bereaved family.

PRESENTED TO THE R.C.A.F.

Presented to the R.C.A.F. by policemen of Canada, this new Spitfire is being piloted by Pilot Officer Gordon Hoben, former Royal Canadian Mounted Police Officer, shown in the cockpit. P.O. Hoben had been a bomber pilot

but at the request of the officers who raised the Spitfire fund he was sent to an Operational Training Unit for a ground course as a fighter pilot. P.O. Hoben served with the R.C.M.P. in Toronto, Saskatoon, Regina and Win-

sor. Presentation was made by Sir Metropolitan police of London, standing nearest the cockpit. Air Vice-Marshal Harold Edwards, Air Officer in Chief, R.C.A.F. Overseas (RIGHT) accepted the aircraft.

THE WEEK IN EDMONTON

By DAN, E. C. CAMPBELL
Director of Publicity

Back from Eastern Canada and the recent debt conference between prairie governments and federal authorities, Premier Aberhart said this week that an acute farm and factory labor shortage is evident in Ontario and throughout the east.

NEW RAILROAD PROJECT TO ALASKA?

Reports that Edmonton is included in the list of possible railway points on a projected Alaska Railway have been received with interest in government circles. In a communication to President Roosevelt, Frederick A. Delano, chairman of the Natural Resources Planning Board, advised that the U.S. proceed with the building of a railway as "an important military necessity." Mr. Delano was in Edmonton recently conferring with Government officials. Of five gateways listed, the Lethbridge Edmonton route from Great Falls and Billings is mentioned.

NORTHERN DEVELOPMENT

In a tour of inspection, Hon. W. A. Fallov, has gone to McMurray to view developments in that area in connection with the booming northern

transportation business. The minister is working on various projects to give tangible assistance to U.S. military and civil authorities in the building of various northern projects, and the easing of traffic problems.

M.L.A.'S AT SARCEE

Alberta's acting premier joined the troops in training at Sarcee this week, leaving the reins of office to another minister while he attended to a different branch of the King's business. He is Hon. E. C. Manning, minister of Trade and Industry, who is a 2nd Lieutenant with an Edmonton regiment. Hon. Lucien Maynard has also spent a period in training. He was recently promoted to 2nd Lieutenant with an artillery unit, after training in the ranks.

THE TEA AND COFFEE RATION

The people of Canada have been asked to reduce their consumption of tea by at least one half and of coffee by at least one quarter. Housewives can make the ration go further if they are careful and observe a few simple rules. The following suggestions are made by the Women's Division of the Agricultural Extension Service.

1.—Make only the number of cups of beverage that you need.

2.—Measure exactly the tea, coffee and water.

3.—Buy coffee that is ground properly for the method you use.

4.—Give up those "extra" cups of tea and coffee at meals and between meals.

5.—If any of the beverage is left pour it off the grounds and chill to use as iced tea or coffee.

6.—Drink other beverages—milk for instance—that are more nutritious. While tea and coffee are milk stimulants, they have absolutely no food value.

W.P.T.B. NOTES FOR FARMERS

Q.—Will the production of farm machinery be reduced?

A.—Yes, with a few exceptions, such as milk machines, cream separators, and one or two others, there will be decreased production, although there will be an increase in the production of machinery parts.

Q.—Can a farmer move a tractor from a dealer's to his farm using marked gasoline?

A.—Yes, by obtaining a permit from the Provincial Fuel Controller.

Q.—Can he move a tractor from farm to farm using marked gasoline?

A.—Yes, a distance of ten miles is permitted.

Q.—Is there any danger of a shortage of milk cans?

A.—The production allowed is ten percent over 1940 in any year and with the increase in production milk cans will have to be used continuously.

Q.—Are exchanges of goods between farmers under the ceiling.

A.—No, but if sales are made to persons other than farmers, then the ceiling prices apply.

Q.—What will be the supply and prices of binder twine this fall?

A.—Farmers will buy binder twine at the same price as in 1941. The same grade may not be available. If substitution is made, the same profit only per pound will be charged as in 1941. Price ranges from 500 ft. of twine at 9 cents per pound, to 650 ft. of twine at 11 1/2 cents a pound.

MORE PROBLEMS ANSWERED BY W. P. T. B. INVESTIGATION OF RENTALS CONTINUES

George J. Bryan, Regional Rentals Officer of the Wartime Prices and Trade Board, recently visited Red Deer, to investigate the observance of rentals regulations. Mr. Bryan held conferences with real estate agents and with managers of rental agents inspection of boarding houses was also made, to see if landlords had posted cards of rentals charged, in each accommodation rented. Violations of the regulations have been referred to Judge A. A. Carpenter, Enforcement Counsel for Alberta, who will take action in a number of cases.

Christian Science

"Love" is the subject of the Lesson-Sermon at all Christian Science Churches on Sunday. The Golden Text is II Corinthians 12:11. One of the Scriptural citations is "Seek good, and not evil, that ye may live; and so the Lord, the God of hosts, shall be with you, as ye have spoken" (Amos 5:14). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is "Spiritual living and blessedness are the only evidences, by which we can recognize true existence and feel the unspeakable peace which comes from an all-absorbing spiritual love." (P. 264)

NIGHTINGALE

By M. H.

SUCCESSFUL FIELD DAY

A field day and annual picnic, sponsored by the Women's Institute, was held at the home of Mr. and Mrs. E.M. Stoodley last Friday. The crowd came early and the young folks immediately started softball games.

The adults gathered in the shade of the trees to hear the addresses by the field day speakers. C. R. Gladden as chairman introduced the speakers. Mr. P. J. Whitbred, Dept. of Agriculture in Calgary, gave a fine talk on "Self Sufficiency of Agriculture". Mr. J. K. Mackenzie, instructor of agricultural engineering school of Technology, spoke on "Care of Tractors". R. H. Painter, Etomologist from Lethbridge, explained "Sawfly and Warbles Their Habits and Control". Considerable discussion followed these addresses and a note of thanks was expressed to these gentlemen.

In the meantime, ice cream was served the children and a series of races were run. Mrs. Pat Brown and Miss K. Harriman took care of the races. A sumptuous supper was served at the close of the afternoon. Everyone sincerely appreciated the kindness of Mr. and Mrs. Stoodley for the use of their premises. Mr. Stoodley has a very fine selection of fruit trees in his garden. These are making splendid progress this year. Mr. Whitbred was very pleased with the interest shown in a live discussion following the addresses.

There were about 125 present. Very much practical benefit can be derived from hearing these addresses and discussions.

The cheery Circle Girls' Club held a dance at the hall during the evening and a tidy sum was cleared for the milk for Britain fund. The Valley Gardens Orchestra supplied the music and the usual peppy time was enjoyed by all.

Berta Vale - Serviceberry Women's Institute

Mrs. Plath entertained the W.I. at her home on Thursday, July 23. There were 13 members and 8 visitors present. The Roll Call was Current Events.

A letter was received from Nightingale Institute inviting our members and their families to attend the picnic to be held at the farm of Mr. and Mrs. Stoodley on July 24.

Arrangements were made for a tea to be held in the Sample Rooms on Saturday, August 1. Proceeds are in

aid of the "Milk for Britain" Fund. The prize donated by Mrs. T. Taylor for the best lady dressed as a child, was won by Mrs. Plath. Mrs. Maillou of Maple Creek, who is visiting her daughter, Mrs. L. Hilton, was the judge.

A delicious tea was served and a number of pictures taken of the "children".

The next meeting will be at the home of Mrs. Backs on August 13. The Roll Call — My favorite book and its author.

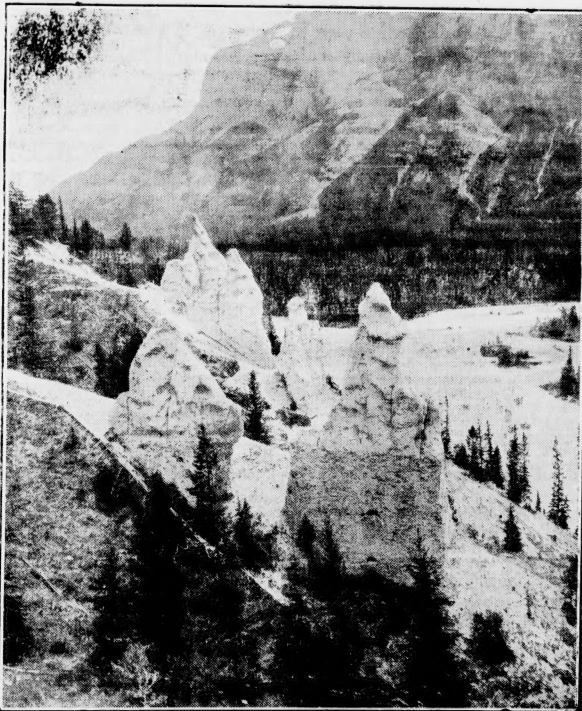

A LOOPHOLE

Little Marjorie was very fond of talking. One day when some guests were expected for dinner her grown up brother tried to impress upon her the necessity of speaking only when spoken to.

"All right," the child finally agreed, "but do please ask me some questions."

Mrs. A—"I hear that you won a vacuum cleaner in the raffle."
Mrs. B—"Yes, but it's of no use to me. I ain't got a vacuum."

HOODOOS IN BOW VALLEY, BANFF NATIONAL PARK, ALBERTA

PERMITS TO CARRY PASSENGERS

About 2,000 permits have been given to farmers to carry passengers in their trucks in the course of necessary transactions of farm business, the Services Officer, Truck Control, W.P.T.B., reports. But as many refusals have been handed out.

Ball games in the country or country conventions, when other transportation by bus or rail is available, are not considered. The Board gives every fair attention to applications, but feels that public response should meet the needs of conserving wear and tear on gas and materials.

HERE'S HOW FOR GOOD SALADS

Into the salad bowl put salt, pepper and paprika in quantities your judgment suggests and your taste confirms. Add three tablespoons of vinegar, preferably tarragon, and 6 or 8 tablespoons of salad oil. Mix thoroughly, adding a button of peeled garlic if you want to be seriously regarded as a salad maker, then chopped celery, especially the green leaves, chicory, water cress, grated carrot or raw cauliflower. Grated cheese, well seasoned or definitely aged adds zest. Then the lettuce, a whole head leafed out. Stir up thoroughly and serve in generous portions with crackers or thin well-buttered real whole wheat bread.

PARCELLING SUGAR CAUSES 2 PERCENT LOSS

For merchants who dole out sugar rations for the housewife an allowance is made by the W.P.T.B. for them to return 98 coupons for 100 pounds of sugar when they replenish stocks at the wholesale. This covers the inevitable loss of about 2 percent in repackaging in small quantities.

EVERY DAY IS SALAD DAY

There is a salad for every day in the year and it is important to develop your taste for them because of the threatened shortages of canned goods. Apostol card to the health league of Canada, 111 Avenue Road, Toronto, Ont., will bring you a free vitamin chart for ready reference and a booklet "Salads That Are Different".

More than one-fifth of the total population of England and Wales lives in Greater London in normal times.

Capt. and Mrs. Downey and children of Calgary were weekend visitors with the Harriman family.

Crops are looking fine. Some if the people to the north of Nightingale were hailed out 100 percent earlier this month.

Mr. R. C. Gladden has taken on the elevator work for the Alberta Wheat Pool as Mr. Mack Rudd has joined the air force.

MAKE WAY FOR YOUTH

OUR PROBLEMS in the civilization which we will have following the war will be different and methods of meeting them will need to be different. To meet these new problems and to plan these different methods we must have young leadership with courage, vision and initiative. I have all the faith that given the opportunity, we have the young people in this country today who will face these new responsibilities with the same spirit and courage with which America has met every emergency in the past.

It is not too soon to begin now to build young people for the future. There will be imperative need for the type of young leadership mentioned above—leadership which has the courage, the vision and the initiative which, unfortunately, come only with youth.

That need of the organization is very clear in my mind. If young leadership is to be given an opportunity for development it is necessary that a place be made for them.

—J. A. Coulter, resigning as a director of Fairview's League Co-Operative Association of New York City after 20 years of service.

OUR BOUNTIFUL HARVEST

IN from two to three weeks time, the fields now green will be ripening for the harvest.

On all sides there is evidence of a bumper crop providing no hail or frost intervenes to mar the picture.

Next to that "if" is the big problem of manpower to harvest the grain.

Some suggestions have been made which were more visionary than practical. The idea of releasing a lot of inexperienced men from stores or offices to stook wheat sheaves, run a combine or tractor would in many cases only make confusion worse con-

founded.

The suggestion to leave high school boys free to give this aid has met with more favor. The question is serious and is being discussed at meetings by practical business men including W. Harry Ross, L. D. Nesbitt, D. N. Gardiner, and others, and from their suggestions we may be assured, some workable plan will result.

The grain must not be allowed to go to waste. The world has need if it.

CARSELAND

Mr. and Mrs. Worger and family left Monday for Calgary where Mr. Worger has a position on the city staff.

* * *
Mr. and Mrs. Malmberg (nee Mickey Mace) are being congratulated on the birth of a son, July 24.

* * *
The L. A. Picnic Supper was held Wednesday evening and was a success in spite of the weather.

* * *
Kathleen McKinnon, Pam Paterson and Margaret Cole are attending C.G. I.T. Camp at Millerville, and report a good time.

* * *
The Ladies Galloping Teas are causing much merriment, Mrs. Barlow being hostess to about 20 on Tuesday.

* * *
Saturday evening, about 22 ladies gathered at home of Mrs. Gillespie in honor of Mrs. Worger. On behalf of those present, Miss Kennaugh presented Mrs. Worger with a sandwich set accompanied by best wishes for health and happiness in their new home.

* * *
Mrs. San Nelson who was taken to Calgary Hospital last week is now making good recovery.

Another pioneer resident in the person of Mr. Robt. Woodrow is leaving us soon. He will be greatly missed but we wish him luck in his new position.

COUNTESS EN ROUTE TO CANADA

Countess Maria Patulicka, whose home was in France before the Germans took over, is shown as she arrived in New York with her dog, "Barry." The countess is en route to Canada.

WHO WILL BUILD THIS "NEW WORLD"

THE peoples of the democracies during the past three decades have talked a good deal about internationalism. As governments, we have never achieved it. The one great attempt at collectivism failed because its participants failed, as nations, to achieve the unselfish will to cooperate that would have been possible between the individuals of those nations.

The member countries of the League of Nations could not make up their minds about Spain or China. But a Dr. Bethune could readily enough make up his mind that there was something he could do about those countries. So there was born the Bethune Blood Transfusion Service that brought a little bit of help and pity into lands torn by bitter strife.

There wasn't much thought of internationalism before the first Great War. The Carnegie and Rockefeller and Nobel foundations were not the result of governmental planning. They sprang from the inspired thinking of private citizens who had a vision of a better world that did not stop at some geographical boundary. There is nothing novel about international conventions of social workers or educators or doctors or literary groups or Rotarians. In those things the peoples of this and other democracies showed that they could step across boundary lines, that they recognized that the world is made up of people who work and suffer and achieve, and not of coldly impersonal divisions on a map.

But, strangely enough, these same people who could think so broadly as individuals, seemed to lose the vision of a service that knew no boundaries when they combined as governments. Trade and politics and economics they set aside as something different from these broad humanities. These were ideas that couldn't be shared without the possibility of some disadvantageous happening.

But there is a new spirit in the world today. It is the spirit of people who want a better social order, not for themselves alone but for every one. It is presented in the words of the American Ambassador John G. Winant as he challenges Britons and the world to implement the ideals and the dreams of the new order that is our enduring hope.

"When the war is done," says Mr. Winant, "the drive for tanks must become a drive for houses. The drive for food to prevent the enemy from starving us must become a drive for food to satisfy the needs of all the peoples of all countries. The drive for physical fitness in the forces must become a drive for bringing death and sickness rates in the whole population down to the lowest possible level."

And Cardinal Villeneuve of Quebec, in a pastoral letter, is saying to his people, "We must keep in mind that victory over our enemies will be useless unless, afterwards, we establish a more just and equitable social order in which human rights will be more completely respected, and wealth more fairly distributed."

These ringing words are but the voicing of a spirit that is moving in the hearts of great multitudes of people in many different lands. It springs from a new warm feeling of comradeship that is born of tragic happenings and great obligations shared. It is fostered by the urgent necessities of the moment. It is touching even governments. There is an organization known as the Combined Production and Resources Board. On this board is a sort of dual chairmanship, is Captain Lytton, an Englishman, and Donald Nelson, an American. Canada is still more closely allied with its great neighbor.

of Defense, our Joint War Production Committee, our Materials Co-ordinating Committee, our Joint Economic Committee. A half dozen years ago such arrangements would have been inconceivable. Surely these unique developments may have their profound repercussions in a united effort to seek that better world of which we talk so glibly.

It has been the grim necessity of a war for survival that has brought us so closely together in these days. But necessities do not last forever. It may be that when these of the moment have passed, governments will return to their old way of thinking, groups within the community will begin acting again in the shortsighted terms of their own narrow interests.

Our hope is in the people, that they who have always gone further in their individual thinking than the corporate thinking of their leaders will maintain that leadership. It is the people's new world. It is they who can create from

disaster a better way of life.

GOLF NOTES

The men's tombstone competition held last weekend was quite successful. The course was in beautiful condition. Tom Chamberlain and Jack Webb were able to carry their tombstones right to the last hole but Ed Shuman had two strokes left after playing the 18 holes, John Freeman had one stroke and these two won prizes.

Customer: "Waitress, why do those girls keep peeking out of that kitchen door at me?"

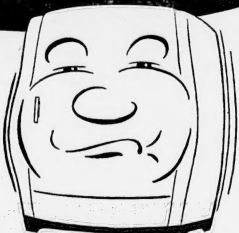

Waitress: "Oh, please don't mind that, sir; they're students from a nearby cooking school, and you've eaten their first pudding."

Wheat Acreage Reduction

All farmers participating in the Wheat Acreage Reduction Bonus must complete a second form, the Final Statement of Claim. This is in addition to the form filed in May and should be completed at the Municipal Office, Strathmore, before July 31, 1942.

4 SPACE SAVING TIPS !

- Remove wilted leaves and all tops from vegetables.
- Don't crowd with unopened canned goods and other food items that will keep equally well on the pantry shelves.
- Put left-overs in the smallest containers that will hold them.
- Remove paper coverings from all except frozen foods.

By following these four simple space-saving hints, foods will keep better, your refrigerator will have less work to do and it will serve you for years longer.

CANADA'S WAR EFFORT

A weekly review of developments on the Home Front: July 16 - 23, 1942.

1.—Canada's synthetic rubber production for 1943 expected to reach 14,000 tons. Eventual annual production estimated at 40,700 tons.

2.—Canada to produce 65 merchant ships by December 1, 1942. Twenty-five now delivered or ready for delivery. Before the war, shipbuilding ran to only a few thousand tons annually.

3.—All but 200 of the 1,267 Japanese fishing boats detained by Dominion authorities when Japan entered the war are out fishing but under non-Japanese ownership, charter or lease.

4.—Coastal defence of Canada considered at secret session of the House of Commons (July 18). Situation explained by three ministers of Defence.

5.—Since war began, 7,920 British children have entered Canada. Of them, 1,532 came to Canada under a Government sponsored scheme; 5,630 under private arrangement; 758 are remaining permanently.

CADET CAMP NEWS

Eligible cadets shall report at the railway station not later than 8:20 p.m. on August 4. Transportation Warrants will be on hand to convey all boys to Calgary. Army Transportation will be available at the Calgary Depot to convey all personnel to camp. Personnel desiring lunch will have to make their own arrangements.

No additional baggage will be permitted other than that suggested by Headquarters. Haversacks and packs are in the hands of your instructor and these should be picked up as soon as possible. All personal equipment such as razor, tooth brush, change of underwear, socks, sweaters, soap, towels (including dish towel), "P.T." apparel (including shoes for sports wear) will be contained in these Haversacks and packs. It is also requested that the boys bring a heavy pair of shoes and an overcoat or windbreaker of some description.

Shirts and trousers will be issued to all cadets upon arrival and will be withdrawn at the termination of the camp period.

SHIPPING ALTA. SUGAR

We imagine Hon. J. G. Gardiner Minister of Agriculture, must have been dealing with the peacetime aspects of the sugar situation the other day when he told the Members of the House of Commons that it was uneconomic to ship Alberta beet sugar to the East. The realities of the situation as brought about by the war are definitely in favor of shipping Alberta beet sugar to eastern users rather than to use ocean bottoms to bring it from Cuba and the West Indies. War is not economic in any of its phases, and shipping Alberta sugar east during the war period should not be considered from a peacetime basis.

The fact of the matter is that Cuban sugar being shipped to Canada today is shipped by the short route to Florida and then shipped north by rail to Canada. Canada must pay in foreign funds for all this sea and rail shipping, and that is a serious drain on the country. Where the shipping costs can all be kept within Canada

ARMY TAILORS

The regimental "snip" is the ser-
geant-tailor. His job is to make such
alterations to a non-commissioned
soldier's clothing as are needed. He
may do private work for officers, pro-
vided that no expense to the public is
incurred.

HOW TO LIVE—BY SILENCE

This calm young man is Allan Harvie, a British seaman who has
been torpedoed four times. One of these sinkings was directly traced
to a spy ring in England. A seaman told his sweetheart, his sailing time
and destination. He was overheard and the word was passed along
until it got to the enemy. Eighteen men died and a valuable cargo was
lost only 50 miles from a British port. Seaman Harvie thinks that a
similar spy ring may be at work here and that the present torpedo-
ings off the U.S. coast may be the result of its activities.

WORLD OF WHEAT

By H. G. L. Strange
Director— "The Crop Testing Plan"

PLOTS AND NEW PLANTS—

The Elevator Agents of the Compan-
ies which sponsor the "Crop Testing
Plan", have, for the eleventh year in
succession, sown a large number of
plots—407 this year to be exact. These
plots include District Plots where the
seed sown this spring—hence the crop to
be harvested—by over 12,000 farm-
ers will be tested for trueness to
variety; demonstration and yield plots
where up-to-date varieties of wheat,
oats barley and flax are on show; a
number of special plots to determine
where commercial varieties of corn
will mature, and a most interesting
series of plots to determine just where
the fibre flax plant will produce fibre
of high enough quality to be scutched
and spun into thread.

Two new varieties of rust resistant
oats, Exeter and Ajax, and a new early
variety, Valor, together with an entire-
ly new variety of oil flax which is re-
sistant to wilt and is a high yielder,
are included in the demonstration
plots.

Farmers and other people should
not fail to visit one of these plots.
They will see with their own eyes

FEW DARK NIGHTS

Completely dark nights in the polar
regions are an exception. The Aurora
Borealis in the Arctic, and the Aurora
Australis in the Antarctic, constantly
add their brilliant displays to the
darkened sky, and the horizon usually
is lighted by the hidden sun.

Mistress (engaging new maid—
And what is your religion?
Maid—Well, mother goes to church,
and father goes to chapel. But me
—I'm wireless.

A great mountain range once stood
exactly where now lies the English
channel.

much that will be of interest and per-
haps of considerable value to them.
Any of our Elevator Agents will be de-
lighted to explain and to demonstrate
to visitors the details of the various
experiments.

NAMAKA

By M. W.

Marjorie Mackle is home again after a week's holidays at Arrowood with her grandparents.

Doug Willis spent the weekend with his sister and brother-in-law, Mr. and Mrs. H. A. Miller.

Mrs. Jacob Lepp and Mary returned

Monday morning from a week's visit with friends at Rosemary.

Henry Boschman left Thursday evening for Brandon after spending two weeks furlough here with relatives.

The Copernican theory was the conception that the sun, and not the earth is the centre of our planetary system.

ROCKYFORD

— By K. M. G. —

A largely attended wedding shower and dance was held in the Rockyford Hall on Friday, July 24th for Mr and Mrs. A. Morrison who were married recently in Calgary. The Rosebud orchestra supplied the music and the ladies arranged for a lunch. A nicely decorated table was used for the beautiful gifts, and at lunch hour a special table was set near the head of the hall for the honored guests and their nearest friends. Mr Geo. Kennedy on behalf of the community in a few well chosen remarks toasted the happy couple and presented them with the gifts on display, with good wishes from all. Both the bride and groom very fittingly replied. Mr Morrison who is clerk at the Rockyford Hotel and Mrs Morrison, formerly Mrs Yorke, Proprietress of Yorke's Cafe will remain in Rockyford.

Miss Lydia Kilian is at present at Hanna on her summer vacation.

Mr and Mrs A. L. Williams and Mr and Mrs H. Ruppe are spending a short holiday at Banff.

Mr and Mrs W. Hopps have had their son Sergt. Hopps of the R.C.A. F. home with them for a short leave.

The second meeting of the month for the United Church Ladies Aid met at the church parlors on Thursday with the president Mrs. H. Bragg in the chair. Reports from the commit-

SCOTT'S SCRAP BOOK

By R. J. SCOTT

tee in charge of the ice cream social show very successful returns and a pleasant evening in every way. After the business of the day, Mrs. Bert served a dainty war time lunch in the cool basement dining room.

Friends were glad to see Wm. Rudd back in Rockyford again after his trip of about six weeks in Vancouver.

A most enjoyable evening was spent at the hall on Monday, July 27, when the many friends and neighbors of Mr. and Mrs. Owen Wise gathered in a shower complimenting them on their recent wedding. Dancing was enjoyed to the strains of the Rosebud orchestra and a very nice lunch was arranged under the supervision of Mrs. Piggins. The hall was decorated with white streamers, and a large decorated table was laden with beautiful gifts showing the esteem in which the honored couple are held. Mr. Bradwell was called on to welcome the newlyweds and extend to them the good wishes of the community. Both Owen and Helen very fittingly replied.

Scientists believe that birds are an offshoot of active reptiles.

"Jack, dear," said the bride, "let's try it make people think we've been married a long time."

"All right, honey," came the reply, "but do you think you can carry both suitcases?"

Some say that the age of chivalry is past, that the spirit of romance is dead. The age of chivalry is never past, so long as there is a wrong left unredressed on earth.

—Charles Kingsley.

Mistress: "Nora, I understand that you have a model husband."

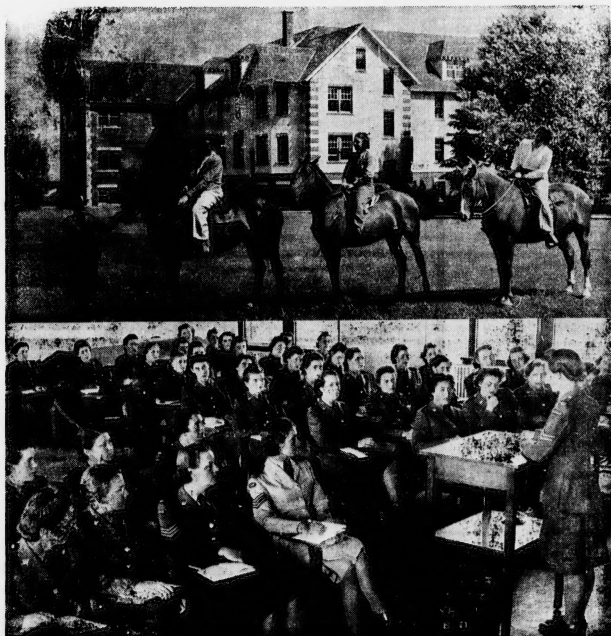

Nora: "Shure, mum, he's the fondest a girl could have. If you could see the way he tries me, mum, ye'd be after saying he were a friend instid of a husband."

Husband—I miss the old cuspidor since it's gone.

Wife—You missed it before that—That's why it's gone.

By every part of our nature we clasp things above us, one after another, not for the sake of remaining where we take hold, but that we may go higher.—H. W. Beecher.

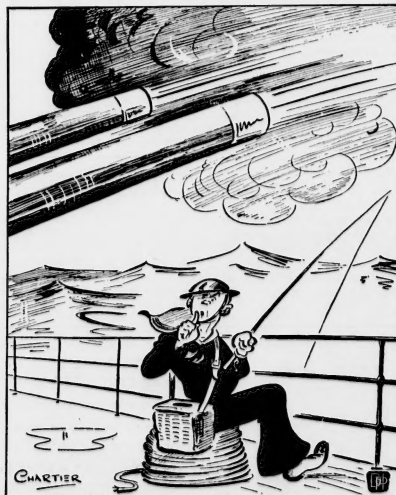

OUTDOOR RECREATION

Top: Healthy, outdoor recreation is part of the training for members of the Canadian Women's Army Corps at the recently opened training centre at Vermilion, Alta. Three staff members are shown chatting with the officer Commanding the School, Lieut. Renee Hawels, in the spacious lawn surrounding the centre. In the photograph, left to right: Lieut. Hawels of Vancouver, B. C.; C.S.M. Jean Buch-

anan of Pincher Creek, Alta.; L-Cpl. Inez Ashton, Stalwart, Sask.; and Cpl. Anne Griffin Mitchell of Winnipeg. Cpl. Mitchell is the daughter of Mr. and Mrs. C. H. Griffin, 323 Wellington Crescent, Winnipeg. Bottom: Cpl. M. N. Stark of Calgary, lectures to an N. C. O. class of C.W.A.C. members at the Vermilion Training Centre, who are being trained as regular instructors for the school. A

number of Alberta girls are shown in the front row. Reading from left to right in the front row at the extreme left of the picture are four Alberta girls, Cpl. A. Chekukul of Delacour, Cpl. W. H. Hunley of Rocky Mt. House, Sgt. A. M. Kennedy and Sgt. H. C. Kozicky of Calgary. Immediately behind Sgt. Kennedy is Cpl. M. Green of Calgary.

TARGET PRACTICE

"Sh-h-h-h-h!"

Local News Items

Mrs. J. D. North has as her guests from Illinois her sister, Mrs. Mayhew, and her sister-in-law, Mrs. Ekstrom. A family gathering numbering about 20 met Sunday, July 26, at the home of Mr. and Mrs. North. The party comprised Mrs. North's brother, Mr. and Mrs. Ekstrom of Airdrie with their families, and Mrs. North's house guests. A very happy day in reminiscencing and general conversation was enjoyed, the party breaking up about 7 p.m.

Mr. Graham of Sexsmith, Alberta, is acting manager at the Royal Bank during Mr. Nicholl's absence on holiday.

Mr. and Mrs. Shrimpton returned Saturday from a short holiday at Banff.

Miss Betty MacMurray went to Calgary Sunday evening to visit friends for a few days.

Mr. and Mrs. Cecil Lambert are leaving Saturday for a holiday of two weeks at the coast.

Murney Ridley and Stanley Wright are having the time of their lives at the Boy Scout Camp at Sylvan Lake.

Fred Wilkinson, who is enlisted in the R.C.N.V.R. at Esquimalt is enjoying a two weeks holiday visiting with his mother and Aunt, Mrs. Geo. Robinson.

Frank Blacore and Tom Oldham spent the week end in Strathmore.

Walter Boissevain has enlisted in the R.C.A.F. J. A. Saar, Strathmore, has joined the tank brigade. J. R. Wymann of Baintree has enlisted in the 85th Battery.

Mrs. Tew and family have leased the house formerly occupied by Len Roberts, and are moving in shortly.

Mr and Mrs C. F. Nicholl are on holiday enjoying a trip in the mountains.

Born to Mr. and Mrs. Allan Cumming (nee Evelyn Moore) Friday, July 24, in Grace Hospital, Calgary, a baby daughter, Brenda Margaret.

Walter Boissevain, son of Mr. and Mrs. H. Boissevain, has enlisted in the R.C.A.F. as an observer. Walter leaves for his training on August 20th. Glen, Walter's only brother, is now training in Prince Albert, Sask., for a pilot.

In the attractive flower and vegetable gardens at Hervey School which we mentioned in last week's Standard, we are informed pupils did the lion's share of the work, under the supervision of the teacher.

Mrs. Earl Gillespie is spending a few days at her Strathmore home.

FUNERAL OF FRANK COWELL

Funeral services for the late Frank Cowell were conducted at Park Memorial chapel Saturday afternoon. Rev. S. R. Hunt of Strathmore officiating. Burial was made in Queen's Park Cemetery and pall bearers, neighbors and friends of the deceased were Roy Novak, Ray Lorimer, Douglas Keer, Vernon Miner, Malcolm McGowan and James Nesbitt.

Mrs. Philip Boese and daughter, Buntie, are enjoying the week, guests of Mr. and Mrs. Patrick.

John Keeling and Jimmy Craddock were home for the week end from Calgary Training centres.

Mrs. Geo. Palardy, Mrs. Gene Giroux, Mrs. Cliff Giroux and Mrs. Geo. Giroux with their families spent several days at the river last week.

Miss Eileen McParland expects to leave Sunday next for Creston, B. C. where she will holiday for a couple of weeks.

Rev. and Mrs. Pearson are planning to leave for holiday Tuesday next visiting with friends.

Mrs. Barnes, who has been the guest of her daughter, Mrs. Ridley for the past two months left Thursday for Nelson, where she will visit another daughter, Mrs. Haylock and family.

Mrs. A. Pierson and Mrs. T. S. Hughes were delightful hostesses at the hospitable home of the former when they entertained at Desert Bridge. Seven tables were in play, the commodious rooms lending themselves admirably for so large a number. Happy conversation, delicious refreshments and interesting games all combined to make a thoroughly happy afternoon. Fortunate winners were High—Mrs. Gladys Morgan, Second—Mrs. E. Whiteside, with Mrs. J. Giffen receiving the consolation. Before dispersing, the entire group assembled on the side lawn where snapshots were taken.

Word has been received by Strathmore friends that Art Clifford is still stationed in Cairo, Egypt, where he has been about two years, and is making gratifying progress. He is now Fit-Lieutenant and in addition has been made censor for outgoing mail, letters and parcels, etc. Art writes that he is in the best of health which Strathmore and Nightingale friends will be delighted to hear.

An Unsatisfactory Session

One of the most unsatisfactory sessions of Parliament within living memory is expected to close at Ottawa this week. It will be a relief to have it closed, as it has dragged along since January 22 and followed a session of almost equal length which closed just the day before. Mr. King and his government have had an unhappy time. The backing and filling over the bill to remove the restrictions on military service pleased no one, neither the people who thought the soldiers should serve anywhere they were needed nor those who thought that they should be compelled to serve outside Canada whatever the danger might be which threatened. It should be remembered that all the discussion on compulsory service either in or out of Canada refers to the Army only. The Navy and the Air Force are enlisted voluntarily, although many of their recruits are men who join when their Army call comes close. Both Navy and Air Force personnel are enlisted to serve anywhere they are needed. The Hong Kong inquiry and the debate on the Royal Commission report which is proceeding this week, coupled with the government's unintelligent handling of Lieutenant-Col. Drew's charges added more dissatisfaction. Mr. Liley's stiffening of the tax rates was a more encouraging sign.

Red Deer Advocate. Much valuable time has been lost by apparent idle discussion.

"Dave, Dave, baby's swallowed a nickel."

"Oh, well, it's his birthday next week."

JOHN FEDEWICH

When Hail Strikes

Magrath's 35th birthday celebration will long be remembered as the day when at 5 p.m., a bare half hour after the crowd of 800 people had left the Amusement park, a devastating hail storm struck the district, demolishing the grandstand into kindling wood. The last of the committee serving refreshments in the rooms below the grandstand had barely arrived home when the building collapsed.

Half an hour earlier if the storm had come when the grandstand was crowded hundreds would have been either killed or seriously injured. So far as it is known no one except Mrs. Hilda Rainbow was seriously injured, she having been cut by flying glass in her own home, requiring treatment in the Magrath Hospital.

Following a hot, dry sultry day the storm swept out of the northwest in sudden fury with little warning, a black cloud driven by a cyclonic wind that must have reached more than 80 miles per hour as it gathered momentum.

Characteristic of all hail storms it tore through the district, wiping out all crops and gardens in its path and damaging many more on its fringes. It is the most devastating hail storm ever to hit this district and means that some 20,000 acres in and adjacent to the Magrath district have suffered losses roughly estimated at about \$385,000. Some of the best crops ever seen in this district were in the path of the storm which began in the irrigated area and cut through the dry land belt, taking everything in its path.

India's production of rubber has been increased to a rate of approximately 16,000 long tons a year from an area of about 135,000 acres under cultivation.

Pepper seeds used in the making of tabasco sauce are stored in oaken casks to ferment and mellow for three years before being used.
